

# TAP & WASH WITH CT400

Accepting payments reliably anywhere at your carwash is now available with the water and dustproof Quest CT400 Contactless Payment Terminal.

Quest Payment Systems have developed the CT400 contactless payment terminal which is easily retrofitted to all your onsite carwash equipment, including: Self serve bays, Automatic carwash entry system, Vacuums, Vending machines & Dogwash.

# AUSTRALIA'S ONLY LOCALLY DESIGNED AND MANUFACTURED PAYMENT TERMINAL

- Contactless payment – Tap & Wash, it's that easy. There is no card insert/swipe or PIN required
- CT400 has the smallest footprint on the market and can be retrofit to your carwash equipment
- The cash free payment solution your customers are looking for - convenient, easy to use and reliable
- Waterproof IP66 standards means the device is rugged and will withstand a wet carwash environment
- Works off a simple pulse – your new generation coin mechanism
- Offers daily reports of real-time payments & cash flow so you can stay on top of your income
- Simple to install with install templates available online
- Increase average spend per customer by offering credit card payments - be a front runner in your location and give your carwash site the edge over your competitors
- Less cash/coin/token handling means you and your staff stay safe and reduce the time you currently spend on cash handling
- Offer your cash customers an alternate payment method for coin jams or a faulty coin mechanism
- Each device is run by its own SIM card which means it will be reliable in establishing a connection and processing payments
- Completely wireless for ease of installation and superior operation
- Competitive merchant fees with NAB keeps your customers coming back
- Funds received daily once cleared through NAB gives you easy access to your funds quickly
- Remote software upgrade keeps your contactless payment system up to date

The CT400 payment system is powered by an airPay Contactless NFC Reader, is NFC ready (Near Field Communication) and accepts MasterCard Contactless, Visa payWave, Amex ExpressPay, and eftpos Contactless card schemes.
