

AntiBac-San

HOSPITAL GRADE DISINFECTANT / CLEANER

- ✓ Easy one step application
- ✓ Kills 99.9% of germs
- ✓ After Cleaning/Disinfecting, the undisturbed surface provides active protection up to 99.9% against SARS CoV-2 (Covid 19) for 28 days.

AntiBac-San

HOSPITAL GRADE DISINFECTANT / CLEANER

AntiBac San is a new generation liquid RTU Disinfectant / Cleaner containing a blend of mixed chain quaternary ammonium compounds and surface wetting agents.

Unlike traditional quaternary sanitisers, **AntiBac-San** has true broad spectrum disinfecting activity and is effective in the presence of some organic soil in both internal and external applications.

AntiBac-San residual film of antimicrobial activity is left on sanitised surfaces and offers

effective broad spectrum protection against listed viruses/bacteria. Typical required surface contact time is generally 5-10 minutes to achieve required sanitation and disinfection results.

Final Spray application may be left to dry on surface, requires no further wipe down and leaves surface cleaned, sanitised and streak free. After Cleaning/Disinfecting the surface using AntiBac-San, the undisturbed surface provides active protection up to 99.9% against SARS CoV-2 (Covid 19) for 28 days.

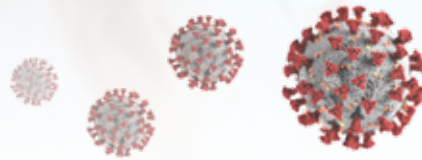

AntiBac-San key effectiveness – controlling, sanitising and or killing:

- ✓ Staphylococcus Aureus
- ✓ Pseudomonas Aeruginosa
- ✓ Salmonella Cholerasuis
- ✓ Escherichia Coli, Proteus Vulgaris
- ✓ Coronavirus Murine (MHV-1)
- ✓ Herpes Simplex Virus
- ✓ Influenza Type A H1N1 Virus
- ✓ Active against gram + or gram – bacteria
- ✓ Controls/reduces/removes mould
- ✓ Effective against bacteria
- ✓ Kills bacterial growth
- ✓ Antibacterial action
- ✓ Bacteriostatic action

USEFUL AND EFFECTIVE IN A WIDE VARIETY OF APPLICATIONS:

- ✓ Hospitals / Dental & GP Surgeries
- ✓ Schools & Offices
- ✓ Nursery's & Child Care Centres
- ✓ Food and beverage plants
- ✓ Laboratory's & Pathologies
- ✓ Restaurants
- ✓ Sporting Facilities
- ✓ Soak disinfecting of pre-cleaned equipment parts
- ✓ Building amenities
- ✓ Safe for use on all soft metals
- ✓ CSSD's, ICU's & Operating Theatre's
- ✓ Train Stations
- ✓ Pubs & Clubs
- ✓ Hotels & Accommodation

PROMOTES QUALITY ASSURANCE:

- Broad spectrum quaternary disinfectant — effective against gram positive and gram negative organisms.
- Effective in the presence of minor organic soiling.
- Leaves residual antimicrobial activity.
- **Anti-Bac San** is a hospital grade disinfectant, can be used on dirty conditions, no need to pre rinse and kills a broad range of organisms including: Staphylococcus Aureus, Pseudomonas Aeruginosa, Salmonella Cholerasuis, Escherichia Coli, Proteus Vulgaris, Coronavirus Murine (MHV-1), Herpes Simplex Virus, Influenza Type A H1N1 Virus.
- Hard surface disinfectant only. Not intended for use on medical devices or other therapeutic goods.

AntiBac-San

HOSPITAL GRADE DISINFECTANT / CLEANER

PROPERTIES:	
Form	Liquid
Colour	Clear light blue
Odour	Ocean Fresh
Spec. Grav @ 20°C	0.98
pH 100% solution	6.0 – 7.0

OPTIMUM PERFORMANCE:

Easy to use

- Ready to use, non-rinsing formula
- One step cleaning and disinfection of hard environmental surfaces

Suitability

- Surface protection: non-corrosive, non-bleaching formula. Disinfect hard surfaces without creating destructive micro-cracks that harbour pathogens.
- Not classified as hazardous according to GHS requirements

No rinse

- With this active formulation, the cleaned surfaces do not need rinsing.

APPLICATION:

USE UNDILUTED FOR DISINFECTION

Apply **AntiBac-San** liberally to the surface, thoroughly wetting out all areas. 5 minutes exposure will KILL 99.99% SARS-CoV-2 (COVID 19). For all other organisms, allow to sit for 10 minutes before gently wiping and allowing to air dry giving prolonged protection up to 28 days on surfaces.

PACKAGING:

500ml, 1L (12 Spray Bottles per box), 5L & 20L
