Clean ahead

Hako-Profi-Flipper

*A compact, manual sweeping machine
for small outdoor and indoor areas*

The Hako-Profi-Flipper sweeping machine with a sweeping and collecting capacity second to none: up to 2,300 m² cleaned per hour.

Simply robust: shockproof steel frame, sturdy aluminium housing, indestructible plastic dirt hopper with 5 year warranty!

Particularly handy, manoeuvrable and extremely easy to operate. A practical solution for trade, commercial and industrial sites as well as demanding property owners.

1) Clean operation

1. The side brush sweeps the dirt thoroughly from corners and borders directly into the path of the wide cylindrical brush.
2. The dirt hopper is easy to remove.
3. Simply hold it by the recessed grip and shake it to empty the waste in the bin.

2) Handlebar / Grip

The handlebar position can be adjusted optimally for every user thanks to its ergonomic design and can even be changed around.

3) Overcoming obstacles

Kerbs and stairs can be negotiated without any problem thanks to the large wheels which project at the rear. Fits through any door.

Technical Data Hako-Profi-Flipper

Sweep width without/with side brush	48/67 cm
Sweeping performance	2.300 m ² /h
Dirt hopper volume	40 l
Weight	24 kg
