

A WHOLE NEW ROAD TO BETTER CLEANING

Blendco Product Information Guide

SUPERSAT DELIVERS OUTSTANDING CLEANING POWER SAFELY AND ECONOMICALLY

Fully automated

Ingenious two component detergent process with no mixing or measuring.

Highly economical

SuperSat detergents are 100% active ingredients delivered without the need for fillers, binders or water. By using water on-site, the costs are well below other soaps on the market.

Delivers strong cleaning power

Two component system delivers the strongest cleaning power on the market without relying on harsh chemical ingredients.

To compliment your Prowash Formulated soaps we recommend ProShine Ceramic Total Body Protectant and Splatter Wax with Carnauba for superior shine and protection.

BLENDCO COST CALCULATOR

How does your carwash compare with industry average for strengths and results?

Prowash can provide an on-site soap analysis and show you what your cost per car/minute is.

We can show you how much cheaper, stronger and better SuperSat will be compared to your current soap setup.

Contact Prowash today on (03) 8340 3200

INTRODUCTORY OFFER!

Prowash can compare your current soaps to the SuperSat range and show you how to save money and provide a high quality wash to your customers.

*Tip colours are a recommended starting point. Individual sites may need to change up or down a size to get the desired results. Consult your distributor for more information.

WHAT OUR CUSTOMERS SAY

“ Splatter Wax is the best product we have seen in this industry for a very long time. The end result on the car is just exceptional. Most customers can’t believe the result. ”

ANDREW

“ The SuperSat® system Prowash installed has been excellent. Many customers are happy with the products, and we are starting to see an increase in takings and winning back people that were going to other washes. ”

DARRYL
