\$1 buys

1.5min for Turbo

3min for Standard

Welcome message:

“TURBO Vac Extra Suction”

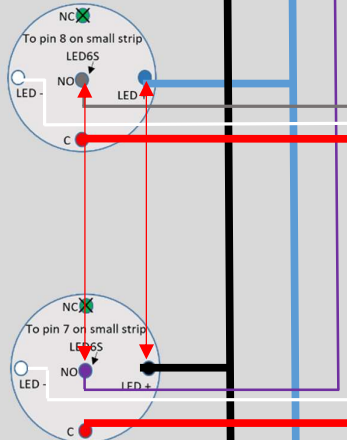

If you would like to swap the function your iVac Turbo will automatically start on.

STEP 1

Swap the **LED+** wires and **NO** wire from button to button.

*You can also swap the decal to prevent confusion for future technicians.

STEP 2

Swap the Standard and Turbo wire at the green plug.

STEP 3 – Program change Swap –

Standard time – (CC:XX) value
Turbo time – (c:XX) with each other.

NOW:

Turbo time – (CC:XX) value
Standard Time –(c:XX)

Snip from manual:

Standard LED6s Settings iVac TURBO –

| | | |
